

X-Ray Consulting Release Form

Performance Chiropractic will take x-ray studies if it is deemed medically necessary. X-rays from outside facilities are welcome as long as the quality of these images is satisfactory. All x-rays will be reviewed and read by a doctor at Performance Chiropractic. On occasion a question or uncertainty on the film will arise which is in need of a second opinion. Performance Chiropractic reserves the right to send patient films to a chiropractic radiologist for a second radiological report. The cost of this service is approximately \$35.00 to \$55.00 per study and is the responsibility of the patient. Charges will be applied to the patient's account. If you have any questions or concerns please feel free to ask the doctor.

I have read and understood the above notification.
